

Deltic Drops in at Spalding with the Hull Executive

Saturday's 'Hull & Leeds Executive' charter with D9009 'ALYCIDON' from the Deltic Preservation Society, was operated by Pathfinder Tours. The tour provided the first appearance of a Deltic on a rake of blue/grey Mark 2 'air cons' at Kings Cross since 1981. Riviera Trains supplied the coaching stock.

The train was Deltic-hauled from Hull (erstwhile Hull Paragon) to Kings Cross and back. The outward journey departed the East Coast Main Line to take in Lincoln and the well-known rail centre of Spalding for a photo-shoot.

The return journey was via the Hertford loop.

A picture taken at Spalding....

Just one of many videos [here](#)

What matters to some!....
