OR for months at = £
PLUS the appropriate joining fee £
TOTAL £

Please make cheques payable to -
Northampton Society of Model
Engineers Ltd..

Please return your completed form and subscription to the Membership Secretary.

Information for Prospective Members

The Society's aims are to;

- bring together persons interested in the construction of models of all kinds.
- promote lectures on model engineering and kindred subjects.
- provide facilities for the construction and running of model road and rail locomotives, boats, cars and other models.
- attend exhibitions for the purpose of competition with other Clubs and Societies.

The main focus of the Society's equipment at the Delapre site is for 3½ in., 5 in. and 7¼ in. gauge passenger carrying railways: a small "32/45mm" railway is also available, of 32mm and 45mm gauges. There is a workshop equipped with a lathe, milling machine and other equipment for use by members.

Membership

Full and **Student** membership is open to anyone aged 18 years or over, who has an interest in any of the many fields of model engineering. They will become shareholders of the limited company, a share certificate being issued after committee approval of their application.

The interests of our current membership include railway locomotives (powered by steam, internal combustion or electricity), clocks, workshop tools, traction, fairground and stationary engines, electronics and boats; the list is extensive. You do not need to have a fully equipped workshop or even a working model to be a member. There are many everyday tasks the society needs to undertake to maintain and operate the site, such as painting, grass cutting and gardening, so whilst you are thinking about learning the skills or building your model, you can contribute to the upkeep of the Society's premises.

If your interest is in either 5 in. or 7¼ in. gauge railways, the Society has its own locomotives which can be made available for members to learn the skills associated with their safe operation.

Free **Associate** membership is available for immediate family members.

Junior Membership for under 18 year olds

Whilst the Society wishes to encourage young people to take up the hobby of model engineering, the prospective member and their family need to be aware of legislative requirements and insurance company restrictions applicable to anyone under 18 years old. Consequently membership for under 18 year olds is at the discretion of the Management Committee, following discussion with parent(s) or guardian(s) on the relevant aspects of the Safeguarding of Vulnerable Groups Act, 2006

Meetings

We meet at the Society's site in Lower Delapre Park, throughout the year, on Sunday mornings from 10.00 to 13.00, and on Tuesdays from 09.30 until 16.00, and from 19.00 to 21.00. The Tuesday daytime meeting is a working session to progress the current development programme. In the May to October period, we open the railways to the public on one day and generally have one club running day or evening, each month. For further information please ask any member or visit our website at www.nsme.co.uk.
